Refunds, benefits and healthcare premiums

If you are unable to work due to illness or an accident, we will arrange your replacement income. Our refunds keep your medical costs affordable. And thanks to the Zorgkas via Helan, you can pay your obligatory contribution to the Flemish social protection (Vlaamse sociale bescherming).

Reimbursement through statutory health insurance

If you incur medical expenses for a doctor, physiotherapist or dentist, the statutory health insurance will arrange how much you will be reimbursed. Your health insurance is also valid in many situations abroad. Helan provides medical assistance and reimbursement afterwards.

As a health insurance fund, we also take your personal situation into account. Through the maximum bill, we will reimburse all your medical expenses for the rest of the year from a certain ceiling. And if you have a lower income, you will get more back via the increased allowance.

www.helan.be/terugbetalingen

Zorgkas via Helan for the Flemish social protection (Vlaamse sociale bescherming)

In Flanders, you pay a compulsory healthcare premium every year for Flemish social protection. This is how you contribute to a better life for more than 300,000 people in need of care.

Helan can be your health insurance fund as well as your healthcare fund, and take care of that contribution for you.

Replacement income and disability advice

Are you sick or unable to work for a while due to an accident or surgery? Or have you just given birth? Then we will arrange your benefits. Making time for advice is something we also do when you return to work after your disability. If you need help aligning your work with your new needs, we are here for you.
